## SUMMARY

Aspiring Full Stack Web Developer with 5 months of experience in developing responsive web applications using React.js. Enhanced application load times by 20% and reduced API call latency by 25% through effective integration and optimization. Proven ability to collaborate with teams and deliver projects within time and budget constraints. Eager to leverage frontend and backend skills to contribute effectively to your development team.

## EDUCATION

### Sasi Degree College

Bachelor's degree computer science(B.Sc.)

Percentage : 80%

Jun 2020 - Jul 2023

Velivenu, India

## WORK EXPERIENCE

### FirstStore.io

React.js Developer Intern

Feb 2024 - Jul 2024

Delhi

- Enhanced application load times by 20% through optimized React.js components.
- Reduced API call latency by 25% with effective integration of various APIs.
- Improved application performance by 15% by optimizing state management with Redux.
- Boosted mobile user satisfaction by 35% with responsive design implementations.
- Increased development efficiency by 20% via code reviews and refactoring sessions
- Decreased bug resolution time by 40% by collaborating with backend developers.

## SKILLS

- Frontend:** React.js, JavaScript, HTML, CSS, Redux
- Backend:** SQL, Node.js, RESTful API (Node.js, Express.js, MongoDB)
- Tools:** Git, Webpack, npm, VS Code
- Database Management:** SQL
- Version Control:** Git, GitHub
- Strengths:** Excellent communication and collaboration skills, Strong problem-solving skills and attention to detail, Excellent teamwork and communication abilities, Passion for continuous learning and staying updated with the latest industry trends

## PROJECTS

### Newspaper App with React and Redux

Nov 2023 - Nov 2023

- Built Newspaper App with React and Redux
- Implemented dynamic content and state management
- Designed clean UI for seamless navigation
- Enabled real-time updates for engaging news experience
- Technologies Used : Html5, CSS, React.js, Redux
- Project URL : <https://globalnewschannel.netlify.app/>

### Weather App with React

Nov 2023 - Nov 2023

- Developed a responsive Weather App using React for real-time weather updates
- Implemented dynamic data fetching and user-friendly interface, providing current conditions and forecasts
- Technologies Used : Html5, CSS, React.js
- Project URL : <https://weatherreporterdaily.netlify.app/>

## CERTIFICATIONS

- Front End Developer ::** 10000 Coders Institute, Hyderabad
- IBM Python Certification ::** <https://courses.ibmcep.cognitiveclass.ai/certificates/c59516a73db345978ca0b5de2031909d>
